

CELEBRITY TRAWLERSMEN: ALL AT SEA

Can three celebrities survive one of the world's toughest jobs?

Three celebrities with a passion for casual fishing join the crew of a North Sea trawler working alongside lifelong fishermen on a genuine, two-week commercial fishing trip during the peak of the winter fishing season.

They work as ordinary crew, in all weathers, day and night. They experience the reality of one of the toughest and most dangerous jobs in Britain and with the celebs making up a third of the crew, the success of the trip rests in their nets. If they don't do their bit, the catch will be too small and nobody gets paid. But if they rise to the challenge and pull together, they hope to discover what trawler crews love so much about this unique way of life.
