

**WHAT WOULD YOU DO IF YOU HAD THE COOLEST JOB
IN THE WORLD, BUT COULDN'T TELL YOUR SON?**

Tim Elliott (*Darren Boyd*) is a single father trying to win back the respect and affections of his precocious nine year old son, Marcus. In the hope of proving that he is not a complete loser, Tim quits his dead-end job only to find his life changes forever when he is accidentally recruited as a trainee spy for the UK Security Service, MI5.

Tim struggles as he attempts to run his parallel family and professional lives without his secret being discovered.

Supervising Tim at work is his irrepressible MI5 boss known only as "The Examiner" (*Robert Lindsay*) who teaches new recruits his own unorthodox approach to the espionage game. Adding to the chaos of Tim's life are his acidic ex-wife, Judith (*Dolly Wells*), her enthusiastic new boyfriend Philip (*Tom Goodman-Hill*) and his anti-social friend Chris (*Mathew Baynton*).

And romance may be on the cards for Tim in the form of a fellow spy, Caitlin (*Rebekah Staton*) provided she can let her guard down long enough; or perhaps if he's really unlucky he may fall into the web of psychopathic obsessive social worker, Paula (*Rosie Cavaliero*).
