

# SERIAL KILLER WITH PIERS MORGAN

**FOR THE FIRST TIME,  
AMERICA'S MOST NOTORIOUS KILLERS SPEAK OUT.**

# SERIAL KILLER WITH PIERS MORGAN

In this thrilling new series, Piers Morgan ventures behind bars once again. With unprecedented access to maximum security prisons across the United States, he comes face-to-face with three of America's most depraved Serial Killers: men who for decades haunted communities as they stalked their prey.

Each of these landmark films is built around a chilling encounter between our host and the killer - men who have never spoken on camera about their crimes before.

As the stories are unpicked, Piers meets victims' families and law enforcement to understand how the actions of these men wreaked havoc across America as police raced against time to catch them before they struck again.

Piers delves into the minds of these killers to discover what drives them to kill...and kill again?
